Physical/Health Challenges: This mission trip includes travel into the poorest areas of West Africa. Conditions are frequently uncomfortable and physically challenging, including extended periods of walking on rough/unpaved paths, and long travel times requiring use of modern and primitive, private and public transportation services which may lack accommodations for people with physical disabilities. Dietary and climate changes also add to the physical intensity of our trips, and due to the nature of long periods of travel, experiencing lack of sleep is customary. We will be in remote areas and medical care will not be immediately available. Please be considerate of these factors as you evaluate your personal readiness for such conditions.

Conduct: Due to respect for the local culture (along with Metro policy), there will be no Alcohol or tobacco consumption/purchase while on this trip. Foul or abusive language is not permitted.
